

HSA SAVER

BUILD SAVINGS FOR THE FUTURE, STARTING NOW

Using your Discovery Benefits HSA to save is a smart way to start preparing for retirement. Not only does building up your HSA funds equip you with a way to save for future medical costs, it also gives you a way to grow your funds to use on other expenses, without penalty, after you've reached age 65. And with a Discovery Benefits HSA, you can take advantage of:

A LOW INVESTMENT THRESHOLD

With a low threshold, you can start investing earlier, giving you the opportunity to grow your funds and start preparing for future expenses sooner.

TRIPLE-TAX SAVINGS

An HSA is unique in the tax savings it offers: Contributions are tax-free, earnings are tax-free and withdrawals for eligible expenses are tax-free.

FDIC-INSURED FUNDS

Rest assured knowing your funds are protected and available when you need them.

YOUR TOOLS FOR SAVINGS SUCCESS

We make saving and managing your funds easy by offering tools that let you:

GET UPDATES ON THE GO

Through the Benefits Mobile App by Discovery Benefits, your online account and optional text alerts, you can access your funds, view balances, get notifications on account activity and see investment details (including performance), and more.

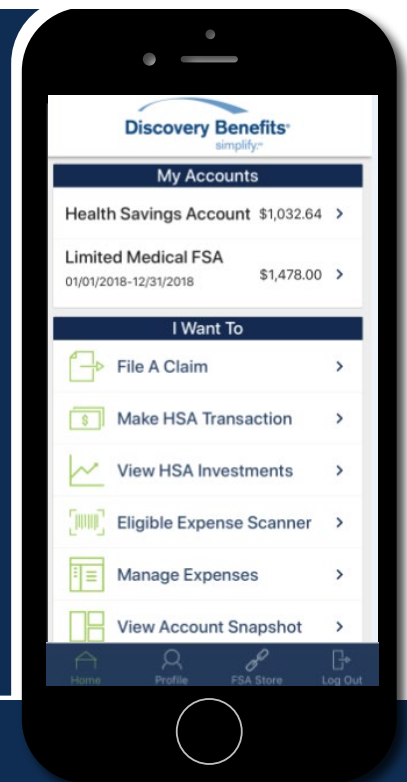

TRACK EXPENSES

The expense tracker allows you to see how many of your HSA funds you're using and what balance you have available. If you don't need to dip into your HSA to cover an expense, you can pay for an expense out of pocket and use this feature to track your receipt. Then, you can reimburse yourself with pre-tax income at a later date.

PLAN STRATEGICALLY

HSA calculators and our Guidance Tool help you figure out what your HSA will be worth over time, as well as what you need to save in order to reach your retirement goal.
